RE: Summer Horse Rentals

We sincerely hope this letter finds you happy at the end of a busy summer season. It seems one benefit of a worldwide pandemic is that outdoor activity demands have increased. Many of our clients have reported a bumper year due to demand for outdoor adventures. We genuinely hope you too have experienced a prosperous 2021.

In making plans for our upcoming summer season, and to ensure horse availability for the many new inquiries that we have been receiving, we are taking reservations for our 2022 summer. We do our best to fulfill each request for horse rental as long as supplies last and we inquire of our present clients first prior to introduction of new clients.

The difficult news on our end is that our prices have been forced to increase due to current economics, including all time high horse prices, work force struggles, drought conditions, feed expenses and fuel costs. Please note the travel costs for delivery and pickup services if we transport horses for you.

If you plan on leasing horses in 2022, please fill out the attached Horse Request Form with the number of horses desired, and delivery dates. Due to our annual horse gather falling on May 7th and 8th, we will NOT have horses available prior to May 20th. With our reduced staff numbers, we have limited deliveries each day, so get your requests in before we are booked! Please keep in mind that there are no deliveries, on Sundays or May 27-30th or July 3-5th and no pick-ups over Labor Day weekend Please return your form via email to misty@sombrero.com no later than February 28th, 2022.

Thank you again for your continued patronage, and please do not hesitate to contact us with any questions you may have!

Happy Trails,

Freda Bishop
